

I Also
Love the
Snow!

Angel Ridge has a 2-week foster-to-adopt program to help you determine if Misty or any other dog is the right dog for your family.

Misty...a Mystery

You don't see many dogs like me around. Remember Spuds McKenzie? Have you seen the Target dog with the red bulls-eye? That's the breed that I am...a stout bull terrier with the egg-shaped head, pointy ears, and adorable pinkish snout.

Not only am I an eye-catcher, I'm also super-friendly with people and love to be cuddled. There's nothing tepid or skittish about me. I'll be the first one to greet people and I never say no to a brisk walk. At about 45 lbs and approximately 3-years-old, I'm a catch for adults who want a single dog that will dote on them. I never have accidents in my kennel even though I can't go outside to go to the bathroom as often as I'd like, so I think you would be very happy at how quickly I would be potty-trained in a new home.

My preference is to be the only dog, but I visited with the cats briefly and it's possible I could live with a calm and confident cat.

It's a mystery why I'm still waiting for a home. My age, size and loving disposition should be all anyone needs to choose me.
